## MEMORANDUM FOR THE RECORD

FROM: David D. Gries *MD*  
Director of Congressional Affairs

SUBJECT: Meeting of INF Legislative Task Force on 9 December

Will Ball chaired the fourth meeting of the INF Legislative Task Force. Also attending were Pam Turner, Margo Carlisle, Ed Fox, Jim Dyer, Rhet Dawson, David Addington, and Alison Fortier. I made the following points:

- explained our guidance spread sheet in a general way and

25X1

- that we had done 26 arms control briefings in 1987 through 13 November and had distributed 57 publications during the same time.

- that the Senate Intelligence Committee was working on its report on the Intelligence Community's monitoring capability. A draft is expected in January. We were about to receive a hundred questions. The three staffers preparing the report had attended five or six detailed briefings on the subject.

- that the Intelligence Community's interagency briefing team would provide a briefing on arms control for the Task Force in the Sit Room on Friday at 1100 hours.

Note for Mimi: The focal point has been moved from Pam Turner to Alison Fortier. Henceforth please alert Alison or her secretary of all INF related briefings we give on the Hill before they are given. Please also do a run from our calendar and publications list for INF only and send same to Alison every two weeks or so..
